The consumers are given a clea fourteen days' time from the date of the receipt of the bil to clear them. It is only after the fourteenth day that th disconnections are made. A local Kannada newspaper had published in its issu 6th September 1951 a report that the Management of Government Electric Factory had forcibly removed a rait of Mahatma Gandhi that was being worshipped b workers of the Factory. This is incorrect. It has ascertained that sometime ago the Labour Associatio the Government Electric Factory was made to vacat room in the Factory premises which it was previ occupying. In this process, the properties of the As tion that were kept in this room were handed over to

Among these properties were portraits of His Highness the Maharaja, Mahatma Gandhi, etc. There was obviously no intention at all to wound the sentiments of the workers in thus removing the portraits and handing them back to their owners.

**Press Note.**

The Government of India are undertaking jointly with the United Nations Organisation a study of the effects of economic and social development on population in specific areas. The areas must typify certain forms of economic and social development which have occurred in the past, *viz.*, expansion of irrigation of commercial crops and of large scale and cottage industries, mining hydro-electric development, improvement in public health, etc. The Mysore State has been selected for this study and Government of Mysore have agreed to co-operate in this study. The United Nations organisation has deputed an expert to conduct the study. An Administrative Officer with an Assistant has been appointed to assist in the field work and office administration, respectively. Their office is located in 1-B, Sydney Road, Opposite to Government Museum, Bangalore.

It is proposed to use three sets of schedules for the enquiry—(1) "Household Schedule", (2) Fertility Schedule", and (3) Village Schedule.

The items of information to be included in the Household Schedule will be age, sex, marital status, age at marriage, etc., and for married and widowed women, the total number of children born and the number alive.

The Fertility Schedule is to include a detailed pregnancy history, information on attempts at family limitation and questions of knowledge of methods of family limitation.

The data in Village Schedule are to be collected by interviewing well-informed persons in the village. This Schedule contains questions on industrial establishments, irrigation, crops, land tenure, agricultural techniques, educational facilities, etc.

A Pilot Survey has been in progress in Ramanagaram Health Centre. A similar survey will be taken up in the Bangalore Corporation area and large-scale field study will extend over the whole of Mysore State in September 1951.

The Survey is of a scientific nature and the information collected will be kept confidential.

The Government of Mysore trust that the people of Mysore will whole-heartedly co-operate with the officers connected with this survey and furnish the required information to the investigators, inspectors and other officers who will be engaged for this study. All the Heads of Departments of Government will afford necessary assistance to the Administrative Officer in this regard.

**Press Note.**

It has come to the notice of Government that of late, there has been a growing tendency of hotels and restaurants run on a small scale gradually getting into the hands of proprietors owning a large number of hotels by the device, firstly of seeking to shift the concerns from less prosperous localities to prominent places in the City and thereafter transferring the proprietory rights to the intending purchasers of the concerns. There are indications of attempts as above being backed up from the very start by bigger proprietors of hotels with the ulterior object of purchasing the concerns and thereby short-circulating the existing ban on the starting of new catering establishments. The result is that a number of small concerns with limited business are gradually developing into big catering establishments diverting for their own use, large quantities of essential commodities required to supplement the meagre rations issued to the public in the City. This is a very unwholesome tendency which requires to be checked by refusing to allow any hotel or catering establishment sanctioned for a particular locality in the City being shifted to another under any circumstances.

Government have, therefore, directed that transfer of catering establishments from one locality to another should not be permitted and speculative transactions in hotel licenses should be discouraged, if necessary, by cancelling such licences.

## MISCELLANEOUS DEPARTMENT.

### OFFICE OF THE COMPILER, *MYSORE GAZETTE*.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P. & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919 in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. & S. 44-25-2, dated 13th September 1926).

Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such money should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

**Press Note.**

*Subject*:—No issue of rations to visitors durin
"Dasara".

In view of the critical food position in the State due to adverse seasonal conditions all over the State as a result of continued failure of rains for over two months and the prevalence of distress conditions in several parts of the State and the difficulties experienced in meeting even the normal requirements of rationing, it would not be possible for the Food Department to issue any food grains or sugar to persons visiting Mysore for witnessing the Dasara Exhibition opening at Mysore from the 2nd October 1951. Intending visitors to Mysore during the Dasara are therefore cautioned that no rations will be issued to them but that they should provide themselves with their own rations so as to save themselves the inconvenience to which they may be put to for want of rations.

**Press Note.**

The rainfall during this year has been considerably less than normal all over the Mysore State. There has been a total failure of rains for over two months in the middle of the cultivating season. Consequently, dry crops all over the State have been generally affected and to a considerable extent, in the Chitaldrug and Kolar Districts. Standing dry crops have withered completely in several parts of the State and the recent rains may not, it is feared, resuscitate them.

Representations have been made from all parts of the State for increased allotments of foodgrains in view of the increased dependence of rural population on Government resources. The Government of India have been apprised of the adverse seasonal conditions in the Mysore State and have been requested that sufficient allotments may be made to Mysore immediately.

Government have also sanctioned Rs. 10 lakhs for starting relief works to afford employment to agricultural classes who are hard hit owing to the failure of standing crops.

## Press Note.

The attention of the Government has been drawn to a leading article in a local daily on the question of adequate supply of wheat and milo in Mysore City. The allegations were enquired into and they are found to be baseless. It is true that the wheat supply in Mysore City was low during the last week of September, but supplies were rushed immediately and the position is now eased. It may be stated that the off-take of wheat during September 1951 was 3,686 pallas as against 4,677 pallas during August 1951 and there was a short issue of 991 pallas which was issued on 30th September and 1st October 1951. It is now ascertained that there is enough stock of wheat in all the Depots in the City. The statement regarding edibility of milo is incorrect. The stock of milo was inspected by the local Inspection Committee and then it was released to the card-holders. It is significant that 200 pallas of milo have been voluntarily exchanged for wheat and this belies the statement that the milo was not in a fit condition for human consumption. The Government desire to make it clear that they are doing their best, consistent with the stocks on hand and the stocks that are received from outside Mysore. Every precaution is taken to see that adequate quantities of foodgrains are supplied to the card-holders according to rules.

## MISCELLANEOUS DEPARTMENTS

### OFFICE OF THE COMPILER, *MYSORE GAZETTE*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P. & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919 in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. & S. 44-25-2, dated 13th September 1926).

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such money should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap will not receive attention; and no communication should be sent on Government Service by private parties.

*Health of Live-Stock during September 1951.*

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrhagic-septicæmia, Anthrax, Foot and Mouth, Sheep-pox, Ranikhet, Gastro-entritis, and Contagious-goat pleuro-pnoumonia were encountered in the State during September 1951. Altogether 236 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 297 villages during the previous month. The number of outbreaks was highest in Tumkur, Kolar, Chitaldrug and Mysore Districts, while Mandya, Hassan and Chikmagalur Districts were least affected. These diseases accounted for 993 attacks, of which 690 succumbed. The departmental staff conducted 30,017 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

An outbreak of Rinderpest among sheep was registered in Davangere Taluk accounting for 35 attacks, of which 10 succumbed. Prompt measures of control were undertaken by the department to check its spread and 4,580 animals in the infected villages and 117 cattle and 275 sheep and goats in two neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 95 villages accounting for seven deaths as against 103 villages accounting for seven deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 6,385 animals as against 6,164 animals during the previous month.

The rest of the live-stock remained free from diseases during the month, and fodder and water were generally available throughout the State.

The "Jwala" of 26th October 1951 has published an article alleging that the Hon'ble Minister for Law and Labour got angry with a policeman on duty two weeks ago for stopping his car on the road near the railway goods shed, in order to give the right of way to a lorry and a bullock cart. The article is a mere fabrication and has no basis in fact. The Hon'ble Minister for Law and Labour is not aware of any such incident at all and he has had no occasion to threaten any policeman so far in his life.

It is regretted that currency should be given to such baseless allegations.

There is a keen demand from the public for the two Representation of the People Acts of 1950 and 1951 and the Rules issued thereunder and the order delimiting the Parliamentary and Assembly Constituencies in Mysore. These publications are sold by the Manager of Publications, Civil Lines, Delhi, or by book-sellers dealing with the publications of the Government of India, but so far they were not available at Bangalore or the other District Headquarters. Arrangements are now made to stock and sell these at the Government Central Book Depot at Bangalore. A local book-selling firm—the S.S. **Press Note.**

Under the Part "B" States Laws Act, 1951, the Administrator-General's Act, 1913 (Central Act III of 1913) and the Official Trustees' Act, 1913 (Central Act II of 1913) have been extended to the Mysore State from 1st April 1951. The Government of Mysore have accordingly created the posts of an Administrator-General and Official Trustee and Deputy Administrator-General and Deputy Official Trustee and have appointed the present Registrar and Deputy Registrar of the High Court of Mysore to those posts until further orders.

The two enactments concerned, *viz.*, the Administrator-General's Act and the Official Trustees' Act are advantageous to the public in several ways and the scope of those enactments is therefore explained in this Press Note.

The Administrator-General and the Official Trustee constitute each a corporation sole with perpetual succession.

*Administrator-General*:—The greatest advantage the public would derive if the Administrator-General is appointed executor or if he applies for probate or letters of administration is that he is not required to furnish any security. But it is not so in the case of a private administrator as the Courts always insist on security before probate or letters of administration is granted. The Administrator-General may be appointed executor of a will just as a private person may be and such a course is advantageous as the Administrator-General is free from the necessity of finding any security for his acts of administration and he can proceed with his petition for probate immediately. It would be a great convenience to the Administrator-General if persons who either nominate or intend to nominate him as executor would kindly notify him of the fact.

The effect of probate or letters of administration granted to the Administrator-General is that such a grant affords full indemnity of all debtors paying their debts and all persons delivering up the assets belonging to the deceased to the Administrator-General.

*Official Trustee*:—Similarly the Official Trustee may be appointed to administer a trust in any of the following cases:—

1. A person intending to create a trust (a settlor) may appoint the official trustee, trustee of any property.

Thus, the Official Trustee may be appointed trustee for the debenture holders of a limited liability company, trustee of a settlement made upon marriage or one made

for the benefit of the settlor's wife and children or other persons. He may also be appointed to take charge of funds intended for charitable or religious purposes.

2. The Official Trustee may administer the estate of a deceased person if, as pointed out above, he is expressly appointed *sole* executor of and *sole* trustee under the will of such person [ (Section 7 (6) ].

3. The Official Trustee may be appointed trustee under a will without having been appointed executor thereof.

4. The interest of an incapacitated person (*i.e.*, an infant or lunatic) entitled to a gift, legacy or share of the assets of a deceased person, may be transferred to the Official Trustee.

5. The Official Trustee is not to be required by any Court to enter into any bond or security upon any of these appointments referred to above and is therefore in a better position than a private trustee.

*General* :– The Office of the Administrator-General and Official Trustee in Mysore being public institutions provisions will be made in the rules to get the accounts of these offices duly audited by the Comptroller of State Accounts in Mysore. Necessary facilities will also be afforded for the inspection of the accounts of the Administrator-General and Official Trustee by any person interested in the administration of an estate. It will thus be seen that persons utilising the services of the Administrator-General and Official Trustee have the guarantee of Government that the properties or trust as the case may be, will be efficiently administered with the minimum expenditure possible.

The jurisdiction of the Administrator-General and Official Trustee extends to the whole of the Mysore State. His office is situated in the High Court building and further details can be obtained from him direct.

### OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

**Press Note.**

The attention of Government has been drawn to an article in a local newspaper regarding the exemption of vehicles engaged in the conveyance of foodgrains from payment of tolls as per notification dated 14th September 1951, under the Mysore Motor Vehicles Taxation and Tolls Act, 1951. Government wish to point out that the exemption now granted applies to vehicles engaged by Government for the transport of foodgrains both on the forward and return journeys, whether loaded or unloaded. It must however be remembered that the exemption is subject to the production of a Certificate by an Officer of the Food Department duly authorised by the Director of Food Supplies, specifying the route. This exemption applies to Municipal Tolls also. Government believe that this information will remove the ambiguity, if any, in respect of the notification under reference.

Fur fulfilling the abovesaid objects the fund of Rs. 2,000 was allotted for this region.

The Committee called for the applications from ex-service women who required financial assistance. Nearly 160 applications were received by the Committee and the same were classified in the following group according to the nature of help they wanted :—

1 Those requiring assistance for payment of medical bills for medical treatment;
2 Those requiring assistance for clearing debts, maintenance charges, etc.;
3 Those requiring training facilities;
4 Those already employed;
5 Those who are employable in view of their qualifications;
6 Disabled;
Those requiring assistance to start small business concerns of their own.

After interviewing all the candidates, the Committee sanctioned Rs. 885 to 18 candidates in way of financial assistance. The Committee also recommended one candidate to Sri Jayachamarajendra Occupational Institute for training in Tailoring and sanctioned Rs. 50 as an outright equipment allowance to find necessary books and other articles and a monthly allowance of Rs. 20 for the donation of the training to meet some part of her boarding and lodging charges. A further meeting of the Committee was held on 15th September 1951 and the Committee decided to purchase two second-hand sewing hand machines and to lend the same to the ex-service women on obtaining necessary undertaking to the effect that they shall not lend or deal with those machines. Two machines have been purchased and lent to two ex-service women.

This sum will be obtained and credited to the funds of the Mysore Soldiers' Board for disbursement among ex-servicemen and their families. The money will be utilised for the following purposes :—

"Flag Day" will be observed on Friday the 7th December of this year (1951) and collections will be made on that day by issuing for sale small paper token flags and paper flags for cars. The Deputy Commissioners and other Officers and the staff who organise the collections are also requested to make every effort to make the "Flag Day" a success and spare no pains to make as larger a collection of funds as is possible.

ENTRIES IN THE DEATH AND OTHER CERTIFICATES.

In the issue of death and other certificates from the Office of the Registrar-General of Births, Deaths and Marriages, the various entries, etc., have to be investigated before such certificates can be issued. If all the details are supplied beforehand by the applicants, it would be possible for that office to issue the certificates within a fortnight of the application. Where such details are not forthcoming the papers will have to pass through various officers involving a great delay. Hence applicants are requested to fill in all the details necessary before submitting their applications, and wait for a fortnight at least before they

can obtain such certificates. It may be remembered that there will not be any delay at any stage if all the required details are recorded at the time of registration of either the birth or the death.

MAHATMA GANDHI AND TRADE MARKS.

The following Press Note, dated 2nd August 1951, issued by the Ministry of Commerce and Industries, New Delhi, is republished for general information :—

"Instances have come to the notice of the Government of India where the name or representation of Mahatma Gandhi has been used *in trade marks* and for other business purposes. While it would be possible to take action under the Emblems and Names (Prevention of Improper Use) Act, 1950, to stop such practice, the Government of India consider that legal measures should not be necessary where the Father of the Nation is concerned and that public opinion and the good sense of the business community should be sufficient to prevent the exploitation of his name. The Government of India, therefore, hope that whenever such instances come to the notice of members of the public they will draw the attention of the persons responsible to the desirability of discontinuing the practice. Members of the public may also bring such instances to the notice of the Government of India, Ministry of Commerce and Industry, or of the State Government concerned, with a view to suitable action being taken."

## OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

**Press Note.**

It has been brought to the notice of Government that certain persons who intend to stand for election to the Mysore Legislative Assembly are members of Committees appointed by the Government of India and it is felt that such membership may amount to a disqualification under Article 191 of the Constitution for candidature to the State Assembly. Parliament has recently passed the Parliament Prevention of Disqualification Act, 1951 (Central Act

LXVIII of 1951) for removing the disqualification of members of Committees appointed by the Government of India or any State Government, so far as it relates to elections to Parliament. As it is considered necessary that similar action should be taken in the State, and as the matter is very urgent, His Highness has been pleased to prorogue the Legislative Assembly, so that an Ordinance can be promulgated for removing the disqualification.

The prorogation of the Assembly does not affect the bills pending in the Assembly and they can be continued when the Assembly is summoned again.

(P. N. No. 196—17-11-1951.)

**Press Note.**

The Government of Mysore have issued the following instructions for the strict guidance of their officers in relation to their conduct in connection with the forthcoming general elections in the State:—

"The ensuing General Elections to the Legislatures in the State and in the Centre will be the first of their kind under the Constitution of India and will be conducted on the basis of adult franchise. According to the Election Programme, the actual polling will take place in the State in January 1952. The number of voters to be dealt with, the number of polling centres to be arranged and the supervision of arrangements for the record of votes, etc., will all be on a scale considerably bigger than in any election, which has been held in the past.

The coming elections, therefore, throw a great responsibility upon Government servants of all categories, whether they are directly connected with the elections work or come into contact otherwise, with the public in their official capacity. They also throw a great responsibility upon the Government in power to ensure that the elections are conducted in an absolutely fair manner and that the part of the Government servants in the election work is one of scrupulous impartiality.

The Standing Orders of Government already lay down that a Government servant may not take part in or subscribe in aid of any political movement. Nor may he attend any political meeting, his presence at which is likely to be misconstrued or to impair his public usefulness. If there is room for doubt whether any action of a Government servant will contravene these provisions, he should refer the matter for the orders of the Government authority to whom he is immediately subordinate. A Government servant shall not canvass or otherwise interfere or use his influence or take part in any elections to a legislative body, provided that a Government servant who is qualified to vote at such election may exercise his vote, but if he does so, shall not give any indication of the manner in which he proposes to vote or has voted.

His Highness the Maharaja desires that the forthcoming General Elections should be conducted with absolute impartiality and maximum efficiency, and to this end enjoins upon every Government servant connected with the election work,—whether he is a Returning Officer, Presiding Officer Polling Officer or a Police Officer, Peon or a Village Officer deputed for duty at a polling station, that a scrupulous regard for integrity, impartiality and efficiency in the discharge of work should be exercised. It is imperative that Government servants connected in any manner with the election work should familiarise themselves with the provisions of Law, Rules and the Circular Instructions laid down for guidance in their work and avoid committing any irregularities in the election procedure and duties entrusted to them.

Though public servants should be scrupulously guided in their conduct and discharge of duties by attention to the Standing Orders referred to above, they should give their prompt and zealous attention and utmost care to all the details of the election work. While Government will be glad to recognise special efficiency and integrity in the discharge of duties connected with the elections in assessing the merits of officers for promotion, it should be understood by all the officers that inefficiency, indifference to work and want of strict impartiality will be liable to disciplinary action being taken.

His Highness the Maharaja feels confident that officers of Government will take action according to these instructions and will maintain the best traditions of the State in regard to the ensuing General Elections."

Sub. :—*Foodgrains and Pulses on trade account—Preferential Traffic.*

The Ministry of Railways (Railway Board), Government of India, had given in their order of priority (General Order No. 5), the tenth place to the movement of foodgrains and pulses on trade account to Mysore State. As Mysore State has always been deficit in respect of gram and pulses and considerable difficulty was experienced by trade in moving these grains to Mysore, the Government of India were requested to give higher priority to Mysore State for movement of foodgrains and pulses on trade account. The Ministry of Railways (Railway Board) have since accorded higher priority by amending General Order No. 5, dated 16th June 1951, as shown below :

Substitute the following for the existing item 2(b) of the above General Order :—

2(b).—Foodgrains and pulses on trade account to areas specifically notified by the Railway Board [At present and until further orders the areas for this purpose are (i) Mysore State, (ii) Madras State, (iii) West Bengal, and (iv) Assam.]

In effect, movement of foodgrains and pulses on trade account to Mysore is allowed preference only next to "Foodgrains on Government Account" which is the first item in the list.

The trade may take full advantage of the priority now afforded to Mysore for movement of foodgrains, gram and pulses to Mysore State.

The consignors are advised to register their demands at the forwarding stations and await their turn according to the order of registration in the Priority Register.

*Effect of Zinc Sulphate on Ragi.*

The Agricultural Chemist, Department of Agriculture, Bangalore, has reported that experiments conducted during 1949-50 at Hebbal, showed that when Zinc sulphate was applied broadcast to ragi at the rate of 5 lbs. per acre just before sowing, the yields of grain and straw were considerably increased. To verify these results a number of experiments on bulk scale were conducted during 1949-50 and 1950-51 in various localities in Bangalore and Kolar Districts, besides the Government Farms. While the check plots received the cultural and manurial treatments normally adopted in the concerned areas, the treated plots received Zinc sulphate applied at the rate of 5 to 10 lbs. per acre.

It is observed that increases in the yield of grain and straw were obtained in almost all cases where Zinc sulphate was applied to the land. The range of increase however varied widely from only a few seers in certain cases to several pallas of grain per acre in other cases. Similar variations are observed in the case of straw yield also. The work of conducting these trials in other areas is being continued. Considering that an increased yield of about one to one and half pallas of grain and an additional 200 lbs. of straw are obtained per acre by the application of the above dosage of Zinc sulphate, it can be estimated that for an outlay of only about Rs. 2 to Rs. 4 increased returns of Rs. 30—35 may be obtained per acre.

*Grading of Ghee under the 'Agmark' in Mysore State.*

Consequent on the extension of the Agricultural Produce (Grading and Marking) Act, 1937 and also the Ghee Grading and Marking Rules, 1938 to all part 'B' States with effect from 1st April 1951, the Agricultural Marketing Adviser to the Government of India, New Delhi, has suggested to take up the grading of ghee under the 'AGMARK' in Mysore State.

As reported, there are three types of Laboratories functioning under the Scheme in India at present and it has been suggested to adopt any of three types depending upon the wishes of the ghee merchants in Mysore State.

The first type is represented by laboratories which are owned individually by packers, Such packers are permitted to link up a sub-packer to grade his ghee through the laboratory and refinery of the principal packer. In the second category fall laboratories owned by associations of packers to which members of the Association are attached as sub-packers. The members can have either separate refineries of their own or grade ghee through a central refinery. The strength of technical staff at such laboratories depends on the number of refineries which the chemists are required to supervise and the quantity of ghee handled there. This system naturally reduces the cost of grading as each packer is not required to have a laboratory and a chemist of his own. There is also a third category to which belong joint laboratories of the second type with the difference that laboratory is owned and run by Government who charge some agreed grading fee from packers working through it. Such laboratories are said to be working at present in Saurashtra, Patiala and East Punjab States Union and Madhya Bharat.

The ghee packers are required to pay to the Central Government charges for 'AGMARK' ghee labels at the rate of 10 annas per maund of ghee graded. A special adhesive required for affixing AGMARK labels is also supplied by the Directorate of Marketing and Inspection, New Delhi.

The question of grading ghee as per AGMARK specifications was discussed with some of the local ghee merchants and as they were not in favour of maintaining a laboratory of their own and also to form into an Association for this purpose. It was proposed to get the ghee samples of the individual merchants analysed at the Government Public Health Institute at a concession rate of Rs. 3 per sample. This proposal, which was agreed to by the Director of Public Health, has been accepted by Government of Mysore, with a modification that the concession rate will hold if the samples to be sent to the Institute do not exceed 10 per mensem.

All the merchants who are dealing in ghee in Bangalore City are hereby requested to come forward and take advantage of the concession granted by the Government in case they are interested in grading of ghee according AGMARK specifications.

For any particulars, they may apply either in person or in writing to the Chief Marketing Officer in Mysore, Apex Bank Buildings, Chamarajpet, Bangalore City.

## Press Note.

It has come to the notice of Government that in some cases the local Revenue Officers have as per provisions of Clause 13 of the Harvest Order, 1949, issued prohibitory

orders restricting the harvesting of paddy in respect of entire villages and even larger areas. The Deputy Commissioners have been instructed to see that such general orders are not resorted to as far as possible as it would inconvenience a very large number of raiyats and that recourse be had generally to prohibitory orders in individual cases wherever it is necessary in the interests of procurement work.

### OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

**Press Note.**

The following Public Notice issued by the Minister of Commerce and Industry, Government of India, regarding the Grant of Emergency licences for replacement parts for industrial plant and machinery.

PUBLIC NOTICE.

"Under the existing Import Trade Control regulations spare parts of machinery required for replacement purposes and falling under Serial No. 36 (5) of Parts II, Serial No. 4 (5) of Part III, and Serial No. 65 (5) of Part V, of the Import Trade Control Schedule are freely licensed from all countries to actual users. The fullest facilities, therefore exist to enable actual users to cover their normal requirements. It has, however, been represented that quite often actual users are not in a position to arrange for the import themselves and prefer to obtain their supplies through the ordinary trade channels. In such cases too, it would be simplest for the Actual User concerned to obtain a licence with a letter of authority in favour of the importer concerned.

Cases, however, do arise whether the replacement parts are required on an emergency basis for despatch by air, *e.g.* when production has come to a standstill on account of the unforeseen breakdown. In such circumstances it is represented that the need to apply for a licence in the normal way after the emergency has arisen only leads to the loss of many precious working days. To meet such contingencies, it has, therefore, been decided to introduce a scheme for the issue of emergency licences to established importers.

Emergency licences will be granted to established importers subject to the following conditions:—

(*a*) these licences will only be granted for replacement parts including component parts as defined in Indian Customs Tariff Item No. [illegible] (3), of machinery falling under Serial No. 36 (5) of Part II, Serial No. 4 (5) of Part III and Serial No. 65 (5) of Part V of the Import Trade Control Schedule;

(b) the value of these licences will be limited to 10 per cent of the value of current licences held by Established Importers for goods falling under the Serial Numbers specified in (a) above, subject to maximum of Rs. 10,000 in the individual case;

(c) these licences will only be valid for import by air and for a period of 12 months from the date of issue;

(d) imports made under these licences will not be taken into account in calculating quotas.

Emergency licences will be granted by the Import Trade Controllers at the ports on presentation of a current licence for goods falling under the Serial Numbers specified in (a) above, accompanied by a Treasury Receipt for the prescribed fee.

In cases where it is not possible to effect the import by air, an application for an emergency licence should be made to the Chief Controller of Imports (Emergency Licence Application), Post Box No. 284, New Delhi, as and when the emergency arises. The application need not be made in the prescribed form but it would be necessary for the Established Importer, to forward the licence held by him referred to in para 3 (b) above, together with a Treasury Receipt for the appropriate licence fee. Precise particulars of the emergency giving rise to the import requirement should be furnished, supported by a confirmatory letter from the actual user and the reasons why import cannot be made by air should be fully explained.

Emergency licences will not be renewed unless the party furnishes precise particulars in form 'A' attached of imports made under the previous emergency licence and the use to which those imports have been put."

*Health of Live-stock during November 1951.*

In their order of severity, outbreaks of Rinderpest, Blackquarter, Ranikhet, Anthrax, Foot and Mouth, Hæmorrhagic-Septicæmia, Sheep-pox and Contagious-goat pleuro-pneumonia, were encountered in the State during November 1951. Altogether 253 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 279 villages during the previous month. The number of outbreaks was highest in Kolar, Tumkur and Chitaldrug Districts, while Hassan, Mandya and Chickmagalur Districts were least affected. These diseases accounted for 1,331 attacks of which 1,097 succumbed. The departmental staff conducted 45,068 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Two outbreaks of Rinderpest of which one was among sheep were registered in Davangere and Tarikere Taluks accounting for 2 attacks among cattle and 28 attacks among sheep, of which 2 cattle and 12 sheep succumbed. Prompt measures of control were undertaken by the Department to check its spread and 3,265 cattle and 1,876 sheep and goats in the infected villages and 4,537 cattle and 21 sheep and goats in 18 neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 103 villages accounting for 14 deaths, as against 78 villages accounting for 13 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 7,657 animals, as against 6,344 animals during the previous month.

The rest of the live-stock remained free from diseases during the month and fodder and water were generally available throughout the State.

The following Public Notice and the Press Note issued by the Ministry of Finance, Government of India, regarding the Maintenance Remittances to Pakistan is republished for general information :—

PUBLIC NOTICE.

"It has been decided by the Government of India to permit residents in India of Pakistani domicile and persons domiciled in India who have dependants in Pakistan to make moderate remittances for their support.

The procedure prescribed for making maintenance remittances to Pakistan is detailed below for the information of the general public.

1. Applications should be made in *duplicate* if remittances are to be made through banks and in *triplicate* if through post offices. As it will not be possible to arrange for the supply of forms all over the country, the applicants should make their own arrangements to submit their requests on the prescribed form, using thick paper for this purpose.

2. All applicants must obtain a certificate from the Collector/Deputy Commissioner of the district in which they reside in the form laid down in the appendix.

3. The maximum amount up to which remittances will be permitted will normally be Indian Rs. 50 per month. Collectors/Deputy Commissioners are authorised to issue permits for remittances up to this limit. Applications for remittances in excess of this limit for exceptional reasons will, however, be considered on merits. Such applications stating grounds on which higher remittance is desired should be submitted on the prescribed form to the nearest office of the Reserve Bank of India, after obtaining the necessary certificate and recommendation of the Collector/Deputy Commissioner of the district in which the applicant resides.

4. On approval, the applicants will be able to make remittances up to the sanctioned amount to the person or persons in Pakistan mentioned in the application form either through an authorised dealer (*i.e.*, an authorised bank) or through a post-office during the validity of the permit at the option of the holder. For the present remittances will be possible only through authorised dealers, as arrangements have not yet been completed for re-opening money-order facilities with Pakistan. As soon as this is done, an announcement will be issued by the competent authority. Permits for remittances in excess of Indian Rs. 50 per mensem will, however, be available for remittances only through banks.

5. Remittances will be made in round Pakistan rupees only.

6. All remittances made will be endorsed by the authorised dealers or the post-offices on the original applications at the place provided for the purpose under their stamp and signature. The application will then be returned to the remitter to be presented again when he wishes to make the next remittances.

7. If, in any month, remittance is not made, the authority to make the remittance during that month will be deemed to have lapsed.

8. All remittances by authorised dealers will be made in the name of the beneficiary or beneficiaries as stated in the application. Postal authorities will also make money-order remittances only in the name or names of persons as approved on the application form.

9. If the remittance is to be made through post-office, one copy of the permit should be forwarded by the issuing office direct to the Post-master of the office at which the remittance is to be made.

10. If the applicant is found to have made any misstatement or abused the facility in any way, his permit will be cancelled and he will also make himself liable for prosecution under the Foreign Exchange Regulation Act, 1947.

11. Approval for remittances will not be granted for more than six months at a time after which a fresh permit from the Collector or Deputy Commissioner will be necessary. Applications for fresh permits should be submitted in the prescribed form and should state particulars of the previous permit.
